STILL HARP ON QUARREL

Much Discussion of Relations Between Alger and Miles.

THE LATTER IS SECURE IN HIS POSITION FOR LIFE.

Washington, Sept. 1.—Special—The disagreement between Gen. Miles and Secretary Alger is still the subject of much discussion, and it is freely admitted by friends of both parties that affairs have reached a pass where one or the other must retire from the service. It is not believed that Miles will resign his position in the army, for he holds it during life, and cannot be legally removed except after conviction by court martial of offenses far more grave than any with which he has been charged. Alger, on the other hand, is secretary of war only during the pleasure of the president, and must retire in any event at the close of the president's term of office. It is therefore the supposition that President McKinley, if he desires to restore harmony between the war department and the army, will be compelled to ask for the resignation of the secretary of war.

Dr. Senn Is Insubordinate.

Chicago, Sept. 1.—Special—Dr. Nicholas Senn, the eminent surgeon of this city, and now attached to the First Illinois regiment, has been drawn into the controversy involving the healthfulness of Camp Wikoff. He has written a letter in which he says the camp is a dangerous place for the troops to rendezvous, and that the health of the men there will be sacrificed if it is maintained. He makes this public declaration, he says, because he is powerless to effect a change of plan by an appeal to the war department, leaving it to be inferred that the officials of that department care nothing for the health of the soldiers. This is a case of manifest insubordination for which the doctor is liable to court martial and dismissal from the service.

Rebels Make Captures.

Manila, Sept. 1.—Special—Two insurgent steamers which left Cavite early in August loaded with native troops, returned yesterday. The commander of the expedition reports that it was entirely successful, and says that they captured the island of Rombono. The commander of the garrison was killed, the men surrendering. They also report the capture of Fort Tayabas on the island of Luzon. The insurgents took a large number of prisoners at both places and captured a hundred thousand dollars in silver.

Charged With Cowardice.

Boston, Sept. 1.—Special—The correspondence between the governor and Col. Woodward of the Sixth Massachusetts, regarding the resignation of the latter and other officers of the regiment has been made public. It shows that Gen. Miles accused Woodward of cowardice during engagements, and that the latter resigned to escape a court martial. Woodward says the charges are false. The correspondence is made public at his request.

The Mustering Out.

Washington, Sept. 1.—Special—Secretary Alger has ordered the Thirty-third and Thirty-fourth Michigan mustered out. The First Wisconsin, has been ordered to Camp Douglas, Wis.

Negligence the Cause.

Fernandina, Fla., Sept. 1.—Special—It has not yet been decided what caused the sinking of the hospital ship Oliveette, but it is reported the negligence of the crew was responsible.

Typhoid is Epidemic.

Washington, Sept. 1.—Special—Camp Alger is still claiming typhoid victims. The number of cases is increasing so rapidly that the disease is pronounced epidemic.

Nurses For the Sick.

New York, Sept. 1.—Special—Gov. Pingree and son arrived here with sixteen trained female nurses last night. They were brought here to help the sick and wounded at Montauk.

DEMOCRATS ARE STILL IN SESSION

STATE CONVENTION NAMES SAWYER FOR GOVERNOR.

Bait for the Germans by the Selection of P. V. Deuster for Second Place—Populists Will Get Secretary of State and Superintendent of Public Instruction.

Milwaukee, Sept. 1.—Hiram W. Sawyer was nominated last night by the democratic state convention as candidate for governor on the first ballot by a vote of 308 to 256 for Ryan, 81 for Rogers, and 10 for J. M. Smith, of Grant county.

Upon the announcement of the result Mayor Rose moved to make the nomination unanimous and the motion was carried.

Sawyer led Ryan by 112 votes and carried most of the congressional districts in the state. The result was received with an outburst of cheers by his supporters. The fight was waged until midnight, not less than fifteen seconding speeches having been made before the balloting began.

Fusion with the populists, although vigorously opposed by the stalwart democrats, triumphed, and the Chicago platform was indorsed without opposition.

The Democratic State Convention, which nominated Judge Sawyer, of Hartford, for governor last night, made a bid for the German sound money vote this morning by nominating P. V. Deuster, former editor of the Seaboard, and late United States consul to Orefield, and a gold democrat, for the office of lieutenant governor.

At 9:15 o'clock the convention was called to order by Chairman O'Connor. While waiting for Judge Sawyer Mr. O'Connor suggested that the convention might dispose of the matter of the chairmanship of the State Central Committee. T. L. Cleary, of Platteville, nominated George W. Peck as "the man who best of all could harmonize the party." His nomination was seconded by Eli ton Habbitt, and he was elected by acclamation.

The resolution to fuse with the populists by giving them the secretary of state and superintendent of public instruction was laid over until late this afternoon. The fusion agreement entered into last night was ratified this morning by the populists, who nominated John F. Schindler, of Milwaukee, for secretary of state, and A. H. Orwig, of Mukwonago, for superintendent of public instruction. It was agreed that the populists should have two offices, the democrats naming the balance of the ticket.

The Platform.

The following is the platform as adopted last night: We, the democrats of the state of Wisconsin, in state convention assembled, do affirm our allegiance to the democratic principles, justice, liberty and equality, upon which our institutions are founded and which the democratic party has advocated from Jefferson's time to our own, and we declare our firm devotion to the democratic principles as enunciated in the Chicago platform of 1896.

We congratulate the citizens of the nation on their loyalty and ardent patriotism displayed in the vigorous prosecution of the late war, and we especially honor the American army and navy for their valor and intrepid bravery on land and sea, and we condemn in unstinted measure the war departments for the blunders and crimes committed against the brave boys in blue in camp and on foreign battlefields, by selfish contractors, incompetent surgeons, and vain, heartless army officers, appointed for political purposes, and we hereby pledge to our brave soldiers and sailors who survive this war, our earnest and loyal support to secure the punishment of the guilty parties.

The republican party of this state, at its last convention, presented only one issue for this campaign, namely, Shall the Republican administration of the last four years be endorsed by the people? We accept that issue and challenge them to defend themselves against the following charges and specifications:

First. You have recklessly and profligately conducted the business of the state, thereby largely and unnecessarily increasing the state taxes and imposing unnecessary and unjust burdens upon the tax payers.

Second. You have carried upon the pay roll employees and clerks who have drawn salaries without rendering service.

Third. You have discriminated in favor of corporations and against the people.

Fourth. Your governor has been the subservient tool of corporations instead of the servant of the people, attested by his vetoes of legislation imposing restrictions or obligations upon corporations as well as by other official acts familiar to the people and unnecessary to enumerate.

Fifth. You promised that you would not remit the judgments in the treasury cases. You violated the promise and thereby dissipated the

WHEELER IS NAMED FOR THE ASSEMBLY

FIRST BALLOT PROVES TO BE DECISIVE.

Faithful Work in Madison Endorsed by the Republicans of the First Assembly District—Choice Made by a Vote That Is Practically Unanimous—Convention Proceedings

W. G. Wheeler was renominated for assemblyman by the Republicans of the first district this afternoon. The vote was practically unanimous.

Chairman W. T. Vankirk of the county committee called the convention to order. C. W. Stark objected to the action of the county committee in calling the convention. He held

that this should have been done by the assembly district committee, but the convention did not regard the objection seriously.

A. A. Jackson was named for chairman and C. F. Yates for secretary.

Dr. J. F. Pember and George S. Woodruff were named as tellers. The informal ballot resulted as follows:

W. G. Wheeler..... 40

Charles L. Valentine..... 7

The ballot was declared formal, and the nomination was made unanimous.

Mr. Wheeler was called before the convention, and expressed his thanks for the honor bestowed upon him.

An assembly committee was appointed, consisting of J. L. Bear, George R. Barker and F. L. Olmstead.

SCHLEY AS AN ADMIRAL

His Friends Think He Has Deserved High Reward

CONGRESS MAY CONFER ADDED RANK ON HIM.

Washington, Sept. 1.—Special—A proposition will be made when congress meets next December to make Commodore Schley a rear admiral. There is a general conviction that his services have not received proper recognition, and an attempt will be made to give him such rank as he deserves. He has received little credit for the bottling of Cervera's fleet at Santiago, or for the destruction of the Spanish vessels when they attempted to escape from the harbor, although he was in actual command of the fleet when both of these events took place. Justice demands that the government give him increased rank, and this will probably be done.

Shafter's Reception.

Montauk, Sept. 1.—Special—The transport City of Mexico, with Gen. Shafter aboard, arrived this morning.

Washington, Sept. 1.—Special—Gen. Miles wired that he would leave for the United States today. Shafter came ashore at noon. The converted yacht Aileen fired a salute of fifteen guns as the general's foot touch the shore. He was greeted first by Gen. Young, who congratulated him upon his excellent physical appearance. The general entered a carriage and amid the cheers of the negro soldiers was driven to General Wheeler's tent. Here he had lunch and a conference with Wheeler.

As soon as it was known that Shafter's transport had arrived a guard of honor was ordered to receive the general. Elaborate preparations were made for the landing of the warrior. Shafter, it is expected, will remain in quarantine the usual five days unless orders from Washington release him.

Galveston, Sept. 1.—Special—Two companies of soldiers with gatling guns arrived this morning.

PLEAD FOR DREYFUS

European Papers Ask a New Trial as a Matter of Justice to Condemned Man.

London, Sept. 1.—[Special]—Local and Berlin papers insist that Dreyfus should be given a new trial.

Paris, Sept. 1.—[Special]—Events in the Dreyfus case are crowding each other thick and fast. There is authority for saying the minister of war has decided to grant a revision of Dreyfus' sentence. Maitre Labori will plead in the court of cassation today in favor of Col. Picquart's appeals against indictment for his complaints of forgery. There was an exciting scene at the cabinet meeting last night when Henry was discussed. Cavagnac once threatened to resign.

New York, Sept. 1.—[Special]—The Journal's special says it is charged that the government asked Colonel Henry point blank to commit suicide to avoid the terrible scandal which would follow his confession, and which would tarnish the honor of the French army.

The general impression is that a majority of the officers of the general army staff will resign. Gen. Pelloux has informed the minister of war that he is ready to resign. A cabinet crisis seems imminent. It is said Gen. Gonzar has resigned and Col. Patty Du Olam has been arrested.

PORTER SET AT LIBERTY

The Alleged Assailant of James Mackin Cleared of the Charge

Edgar Porter, who has been under arrest of late charged with stabbing James Mackin, was acquitted this afternoon in the municipal court. After receiving the congratulations of numerous friends and relatives present he left the court room for his home.

Porter can consider himself playing in big luck. From the evidence taken this morning it appears that both young men were equally to blame. The entire affair was a fortunate one and the interested parties are now congratulating themselves over the outcome.

In referring to their work here Mr. Pearson says that no better block is in force on the entire line than that now in operation from this city both north and south. The bridges they also found in good shape.

They arrived from Harvard, and left for Baraboo.

SOME OBSCURE FEATURES OF
REVENUE LAW EXPLAINED.

Stamps Are Required on Many Documents Hitherto Exempt—You Can't Get Married Without Paying For the Privilege—Bills of Sale of Live Stock.

The new revenue law is still creating a good deal of misunderstanding, and even lawyers have been confused by some of its provisions. The deputy internal revenue collector of this city has received a circular which explains some of the mooted provisions of the law, and is worthy of attention by business men. The subjects especially considered in the circular are the necessity of affixing stamps to letters of administration, bonds of all kinds, brokers' notes, certificates, checks and drafts, and orders for the payment of money, additional rulings on express receipts, insurance policies, leases, powers of attorney, receipts, sales of stock, telegraphic messages and warehouse receipts. Letters testamentary or of guardianship, petitions for appointment of administrators, executors or guardians, and affidavits do not require stamps.

Bonds of brewers, manufacturers of oleomargarine tobacco, or cigars are required to be stamped. If made out in duplicate each copy must be stamped, except those for use in the office of the commissioner of internal revenue. Where a surety company is surety on these bonds the tax is one half of one cent on each dollar of premium in addition to the fifty cent bond on the tax.

A bond filed by order of court is exempt but bonds given by public officers require a stamp. A marriage bond requires a fifty-cent stamp. The certificate issued by the clerk of court requires no stamp, but the certificate issued by the minister requires a ten-cent stamp. A certificate given by a government official to a party for private use must be stamped. A teachers' certificate given by the superintendent of public instruction requires no stamp. Rebate checks issued by railway conductors of the value of ten cents require a stamp, when it is given for excess fare and redeemable by the company. Tickets received at a bank and paid as a check require stamps. Orders for the payment of money drawn by an official of a benefit organization on the treasurer require a stamp. Deeds and mortgages executed by a sheriff require a stamp. A shipment bears but one tax, although in the course of its journey it may be transported by rail and sea.

Powers of attorney executed abroad and used in this country require a stamp. Powers of attorney and proxies for purposes of voting stock of building and loan association require a stamp. Receipts given by safe deposit companies for the safe keeping of valuables do not require a stamp. Sales of live stock must be accompanied by a memorandum of the transaction bearing stamps in proportion to the amount paid. Stamps should be affixed to the warehouse receipts for goods by the warehouseman. Proprietary stamps may not be used on documents.

OUR BATTLESHIPS IN NEW YORK HARBOR, AUGUST 20, 1898. FROM HARPER'S WEEKLY.

AFTER A DRAWING BY H. REUTERDAL. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers.

On Saturday, August 20th, the citizens of New York did their best to give a rousing and enthusiastic welcome to Admiral Sampson's fleet of battleships, which entered the harbor early in the morning. The celebration was an impromptu affair, but the flagship, New York, had hardly entered the Narrows before the Stanton Island, Long Island and New Jersey were black with people, and along the docks of New York City, from the windows of the tall buildings and up along Riverside Drive, one could see nothing but countless masses of people all madly cheering and returning congratulations.

The grim battle-ships showed little or no signs of the fight with Cervera's fleet. First came the flag ship, New York, from the main mast of which Admiral Sampson's twin star flag of blue was flying and which was under

command of Captain F. E. Chadwick. Next came the Iowa, under the command of Captain Evans; then the Indiana, under the command of Captain Taylor; then the Brocklyn, bearing Admiral Schley's blue flag with two stars, under the command of Captain Cook. She was followed by the Massachusetts, under the command of Captain Higginson. The famous Oregon, whose wonderful burst of speed in chasing the Christobol Colon, and whose wonderful fighting powers excited the admiration of the whole world came next. She was followed by what was once known as the "hoodoo boat," the "Texas," which was brushed aside the "hoodoo" and shown herself to be one of our best fighting machines. The vessels were class looking with the exception of the Massachusetts. She was dirty and as one young girl put it, "respectably dirty."

The vessels proceeded up the Hud-

son river as far as Grant's tomb, where our picture taken from Harper's Weekly shows the vessels. After saluting they turned around and went down the river. They stopped a short time at Governor's Island, and then proceeded to their anchorage off Tompkinsville. The occasion was one long to be remembered by New Yorkers and others who saw the parade. The spectacle was very impressive, for these vessels, with their guns and crews, had made American history, and had won for this country a new glory. The men who had done so nobly behind the guns could be seen standing on the forward decks responding heartily to the cheers of the crowds. There was not much time for preparation for this parade, but what New York could do to honor these ships and men was done, and the day will not be forgotten as long as generations hand down records to succeeding generations.

Janesville sent a good sized delegation to the Green county fair at Monroe which opened today in a blaze of glory.

The festivities will last throughout the week and promise to be a record breaker. All Green county has put herself out this year in the interest of her fair and nothing will be found wanting.

A letter from John Kelly, the well known driver of fast horses, was received in the city last evening stating that he would not take part in the races at Readville, Mass., yesterday on account of his horse Directum Kelly being ill with catarrhal fever. Dispatches today state that Kelly kept his word, and that rather than run any chances with his speedy horse he did not enter for the \$5,000 purse in the 2:14 trot.

He is now putting his steed in condition for a race of that \$10,000 purse which is hung up at Hartford, Conn.

SAVANNAH BADLY DAMAGED.

Cyclone Sweeps Through the Southern City.

LOSS OVER HALF A MILLION.

No Lives Lost, but There Were Many Narrow Escapes from Death, Especially on the Wrecked Shipping—Railroads Running Under Difficulties.

Savannah, Ga., Sept. 1.—While there was no loss of life from Tuesday night's storm which swept this city the damage to property will foot up close to \$500,000.

The storm began early Tuesday night and raged with increasing violence until 8 o'clock next morning. It was at its height between 4 and 5 o'clock, when the wind reached a velocity of eighty miles an hour. When daylight came the streets were impassable from debris.

Probably 100 buildings were wholly or partially unroofed and as many more were otherwise damaged. In the business part of the city dozens of stores were unroofed and windows were blown in and the interiors flooded. There was no telegraphic communication Wednesday until late in the evening. Street car travel is suspended and the city is in darkness. The streets are a network of tangled wires. In the harbor and at quarantine at Tybee the damage to shipping is heavy.

At Tybee Island the hotels and cottages were badly damaged. The North Carolina troops passed a terrible night there, but were all brought safely to the city.

All the railroads suffered severely by washouts and trains have been run with difficulty.

The rice and cotton crops have been seriously damaged. It will be impossible, however, to estimate the losses for several days.

The storm covered a comparatively small territory. It extended in the interior not more than thirty miles and hardly that distance north and south. It is believed to have been severe at sea and fears are felt for vessels off the coast.

MAYOR DEFIES MOB.

Shoots into a Crowd of Angry Men at Galveston.

Galveston, Tex., Sept. 1.—Mayor A. W. Ely, revolver in hand, drove back a mob of 2,000. He fired five shots into the crowd, and two men dropped before the crowd turned and fled. The mob re-formed a few minutes later, and again advanced. This time forty or fifty shots were fired by the police, and six of the rioters fell.

One man is dead, and seven are seriously wounded, while perhaps twenty others, among them half a dozen policemen, are slightly injured.

The 200 negro longshoremen of the Mallory line struck when the Mallory steamship Colorado arrived Tuesday. They have been getting 30 cents an hour for day work and 40 for night. They asked 40 and 50. Their request was refused, and last evening a special train from Houston having on board about 100 negroes arrived at the Mallory wharf to take the places of the strikers. The mob had gathered to prevent the newcomers from going aboard the vessel.

As the Houston negroes were debarking from the train the mob charged. The police were struck with coupling pins and clubs and were driven back, when Mayor Ely, pistol in hand, ordered the mob to halt.

No attention was paid to him, and he began shooting. Two negroes dropped and then the mob turned and ran.

For Three New Battleships.

Washington, Sept. 1.—Bids will be opened at the navy department today for the construction of three battleships authorized by the naval appropriation bill passed. By that act the limit of cost, exclusive of armor and armament, is fixed at \$3,000,000 each. One of the vessels must be built on the Pacific coast unless the cost of construction there is more than 4 per cent in excess of the lowest accepted bid for a vessel constructed elsewhere.

Germany May Aid the Czar.

Berlin, Sept. 1.—The Cologne Gazette says that Germany has manifested already to the czar's scheme her willingness to support the czar's scheme of universal disarmament. France, the paper says, is unfavorable to the idea, and maintains an attitude of restrained complaisance toward Russia. It would be impossible, the Gazette adds, for Russia to endorse the attitude of France in regard to Alsace-Lorraine.

Town's Cash Is Gone.

Atlantic City, N. J., Sept. 1.—Treasurer Frank J. Cordery of Brigantine City, this county, disappeared last Saturday, and with him went every dollar in the city treasury. This money had recently been collected on the 1898 tax budget, aggregated some \$4,000, and was to have been utilized to light and improve the streets and pay interest on outstanding bonds.

THE DEMOCRATIC PLATFORM.

The platform of the democratic party of Wisconsin is a remarkable document in many ways. Its affirmations vary but little from those of preceding platforms adopted by the party, consisting of the approval of certain principles of government about which there is not and cannot be any controversy. The plank in which the state government is arraigned for alleged violation of party pledges is but a reiteration of accusations heretofore made in the public prints of the party, which have been proved to be false in their every detail or so distorted as to be misleading and practically no better than mere fabrications.

These characteristics of the platform of a party noted for its duplicity and corruption were to be expected. Yet the public will not be deceived into accepting bold assertions for proven facts. The truth cannot be hidden from a people of intelligence and discernment, and the voters of Wisconsin will demand proof of the malfeasance of their officials before condemning them. This proof is lacking. It is not even hinted at by the democrats, who evidently rely upon the verification of the old adage that a lie travels so fast that the truth in a coach and four cannot overtake it.

The attempt of the democrats to conciliate the populist element of the state is painfully manifest. Care is taken to avoid a decided expression of opinion upon the subject of finance. The declaration of the Chicago platform upon that subject, itself a vague and evasive makeshift, is reaffirmed. It is simply the reaffirmation of a declaration of the absence of any settled principle or policy upon a matter that vitally concerns the business and industrial welfare of the whole people without distinction of condition or occupation. The sound financial system inaugurated and maintained by the republican party, and under which the country has entered upon an era of prosperity unexampled in its history, is condemned by innuendo, and the hope is held out to the discontented that by destroying this system, money may be made so cheap that everybody may possess it. The fact is observed, however, that cheap money has always proved to be valueless as a medium of exchange with foreign countries whose trade we have ever been so anxious to secure and control.

There is nothing in the democratic platform worthy of a great party or that will inspire confidence among the people as to the sincerity or honesty of those who framed it.

OUR FOREIGN TRADE.

American foreign trade is expanding. In the last issue of "American Trade" manufacturers were advised of a market for the following goods in the countries named:

Germany—bicycles.
Philippines—cutlery.
Cape Colony—farm machinery.
Cuba—farm machinery.
Japan—belting and shoe blacking.
China—watches, building cement, and cotton gins.
Natal—barbed wire.
Victoria—varnish.
Egypt—varnish.
Turkey—varnish.
England—Agricultural implements.
Siam—Mineral waters.
Guatemala—Grinding mills.

The above list shows the wide diversity of American goods demanded by the people of foreign countries, and shows a field for trade that may surprise people who have paid no attention to the subject.

EXPENDITURES AT OSHKOSH

Oshkosh city officials have been "casting up their accounts," and among the other items reckoned were the following: Repairs on other city property, \$1,000; repairs of streets not included in the macadam figures, \$3,000; sewers laid, \$2,500. The above items foot up as follows: Macadam streets, \$32,700; school buildings and repairs, \$16,000; repairs on streets and buildings, \$4,000; sewers, \$2,500; grand total, \$55,200.

The greater portion of the street improvement will be paid for by the property benefited by such improvement. Comptroller Iden states that of the whole amount nearly \$25,000

will be paid by the property benefited.

WILL WE PROSPER.

Great Britain's export trade has fallen off considerably of late, and the decrease is due in a large degree to the fact that Americans are using home products instead of the imported goods. The decrease in British imports amounted to \$1,000,000, while the exports fell off \$7,000,000. The heaviest decrease in exports were in iron and steel, wool, worsted tissues and cotton yarns. The falling off in wool exports was from 9,081,800 pounds in July, 1897, to 1,080,300 pounds. This is one of the results of the present tariff law's "protection for American industries."

The election of W. H. Appleby as sheriff means a business-like and economical administration of affairs—just what the people want.

City Engineer Brown's work in laying out the improvements on Jackson street has been praised by many people.

Vote the republican ticket, and vote it straight.

EXCITEMENT IN FRANCE.

Chief Witness Against Dreyfus Commits Suicide.

London, Sept. 1.—Lieut. Col. Henry, one of the chief witnesses against Capt. Albert Dreyfus, killed himself Wednesday evening in the Mont Valerien fortress, near Paris. He had made confession that the document which he offered at the trial had been forged to aid the army in the prosecution of Dreyfus.

Upon hearing of the tragedy Gen. de Boisdeffre, chief of staff of the French army, resigned, and other officers are expected to follow in his footsteps.

The developments have caused intense excitement in Paris and the people are beginning to believe that Dreyfus is the victim of a conspiracy. The feeling is that a new trial will follow.

The cabinet has held stormy meetings on the question, but has reached no decision, save that Maj. Esterhazy, the alleged author of the original bordereau or memorandum on which Dreyfus was convicted, shall be retired from the army.

The feeling prevails that the present French government will be defeated when the chambers meet.

In Behalf of Reciprocity.

Boston, Sept. 1.—At a special meeting of the Boston chamber of commerce for the purpose of considering ways and means to bring about closer trade relations with Canada, resolutions were adopted that the chamber reaffirm its position as set forth in resolutions adopted Jan. 18, 1893. These were in favor of reciprocal trade relations between the United States, the Dominion of Canada and the colony of Newfoundland, and asserted that in the opinion of its members the commercial, manufacturing and industrial prosperity of this country will be greatly promoted by the nearest practical approach obtainable to the establishment of complete reciprocity. It was resolved that the chamber's committee on reciprocal trade with Canada be instructed to present these resolutions to the American commissioners now at Quebec and to re-enforce them with such arguments as may seem best adapted to convince the commissioners.

Colonel Senn's Warning.

Camp Wikoff, Montauk Point, Sept. 1.—Dr. Nicholas Senn, Chicago's celebrated surgeon, continues to warn the government that death is lurking all about for the soldiers in this camp, and predicts that unless it is broken up without further delay it will become the worst infected place on the continent. His protests, however, seemingly avail nothing, for the chief surgeon here, Major Brown, does not agree with him, and the surgeon-general at Washington, notwithstanding the strong words of warning uttered by a man of Senn's reputation, lets them pass unheeded.

But Gen. Wheeler has had his fill of the horrible mismanagement going on here, and has ordered an immediate investigation, to be conducted by Gen. Adelbert Ames, chief of Gen. Kent's staff.

Want Treaty with America.

Kingston, Jamaica, Sept. 1.—The West Indian conference at Barbadoes Sept. 3 is not intended to promote the annexation movement, although such a scheme might be put forward as an alternative against Great Britain's probable refusal to concede the ungratified demand for countervailing sugar duties or a reciprocal treaty with America, which is the prime object of the conference. The annexation movement was tentatively confined to Jamaica, and not having received the popular support anticipated Jamaica's delegate carries no definite instructions relative to the annexation proposal.

Fortifications for Halifax.

Halifax, N. S., Sept. 1.—Guarding the approaches to this harbor are eight fortifications. The most powerful of these is York redoubt. The military authorities have decided to add one more to their number, and are negotiating for the purchase of property on McNab's island, where a fortification equipped with large guns of the most modern type will be erected.

Canadian Officials Get Rich.

Ottawa, Ont., Sept. 1.—Dr. G. P. Mathewman has returned from the Klondike. Mathewman confirms the reports from the Yukon that some of the government officials have become millionaires. He says that Capt. Bliss, the government accountant, was one of the first millionaires he met.

DEMOCRATS ARE STILL IN SESSION

Continued From Page 1.

property of the state without receiving any consideration.

Sixth. Your management of the state funds has been disgraceful. You have paid salaries long before they were earned, loaned money from the treasury without security and without authority of law, while the practices disclosed by the so-called "Doodle Book" are only a sample of your incompetency and lack of integrity, and shows an utter contempt of express law.

Seventh. You adopted a resolution in your state convention of 1896 opposing the giving by corporations or the taxing by public officials of passes and franks. You defeated legislation calculated to carry out that resolution and your governor has flagrantly violated that pledge; and his use of passes and franks has made him notorious.

Eighth. Your party has been dominated by a machine composed of wire-pullers, tricksters, and corporation menials who have used your party for the promotion of their individual and selfish interests, and for the advancement of the corporate interests they represent.

Ninth. More than 40 per cent of the delegates who attended the convention that nominated your candidate for governor, recognizing the truth of the above charges, refused to endorse his administration, and denounced him as being unworthy of further honors.

We make these further declarations:

It is the notorious and an unchallenged fact that large sums of money have been drawn by state officials and other favorites to the great scandal of the state and in direct violation of law. We promise a rigid public investigation of these acts and the prosecution of all persons implicated therein.

We are in favor of a primary election law to replace the present method of nominating candidates for office, to the end that all nominations shall be made by direct vote of the people.

We believe in the referendum, the submission of all laws to the vote of the people, as the best and only means of safe guarding both the interests and liberties of the common people and averting oligarchic tendencies.

We favor honest legislation, state and national, to the end that capital and corporate property shall bear its full share of the burden of taxation.

We declare that it is a wrong against public interests and morals for a public officer to receive a gift or favor from a person or corporation. We therefore pledge ourselves to the enactment, at the first opportunity, of a law prohibiting the issue of passes by any railroad, express, telephone, telegraph, sleeping car, and street railway companies to all public officials and delegates to political conventions, with provisions imposing severe penalties upon both giver and receiver thereof, and that as soon as possible it be made a constitutional provision.

We are in favor of a good road system, and shall encourage the improvements of the public highways of the state.

We promise an economical administration of the business of the state and a reduction of the state taxes to the lowest rate consistent therewith.

CHRIST CHURCH PICNIC

A Good Time Was Enjoyed at Idlewild Park Today.

At Idlewild Park this afternoon members of the Christ Church Sunday school gave their annual outing and the good time that has marked all Sunday school picnics this year prevailed. There was a good sized crowd in attendance and the old as well as the young enjoyed the event to their heart's content. The weather was all that could have been asked for. A tempting repast was in order and the picnic proved one of the pleasantest of the season.

Railroad Men Approve the Lightning Overalls.

Janesville railroad men and machinists have been quick to appreciate the lightning overalls, for which we are sole agent. The overalls possess marked improvements. By reason of the overall being stitched up at the sides and the continuous opening of the apron from the crotch to top, the suspenders—after being pulled through the buckles to the proper adjustment—can be lifted on and off the shoulders like a pair of trousers, and need never to be unbuckled. The old style opening and closing at the side leaves a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old style being solid the suspenders have to be attached and detached every time they are worn.

The jumper and overall being so snugly closed up it is not necessary for the wearer to keep his top clothing on and thereby making them feel bunglesome, as a supporter pulls through the strings on the waistbands of the drawers, and consequently keeps them from slipping down over the hips.

New Arrangement and Low Rates to the Omaha Exposition.

Commencing on Friday, September 2, and on Tuesdays and Fridays through September and October, the Short Line Chicago, Milwaukee & St. Paul Railway will sell round trip excursion tickets to Omaha at half rate prices \$2; good for fifteen days.

Railroad Men Need Good Overalls...

For a month or more we have been showing the Lightning Jumper and Overall. Every railroad man and machinist who sees the garments wants them.

Their value is recognized at once. The Overalls open at the front instead of at the side and the shoulder straps need never be unbuckled. They lift off and on the shoulders like the suspenders on a pair of trousers. The old style opening and closing at the side leave a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old

style being solid the suspenders have to be attached and detached every time they are worn. The Lightning Overall and Jumper being so snugly closed up it is not necessary for the wearer to keep his top clothing on and thereby making them feel bunglesome. A supporter pulls through the strings on the waist bands of the drawers, and consequently keeps them from slipping down over the hips.

All Garments Union Made And Bear the Label.

These Jumpers and Overalls were placed before the delegates of the Brotherhood Locomotive Engineers at their convention held in St. Louis, May 11th, 1898, and pronounced as being the most practical they had ever seen and seventy five per cent. of them purchased from one to six suits each for personal use. The Lightning Jumper and Overalls were adopted by the Wabash R'y Co. and their employees as being superior to all other makes. They beat the world as working garments for railroad men and machinists. We are sole Janesville agents.

clerk, if he had a good pair of trousers
that could be purchased at a moderate
price. Harry, in his usual obliging
way, soon made the stranger feel at
home, and it was not long before he
was fitted out. Mr. Stranger then
said it was a hot day and that it beat
all what weather he had been having.
Then, with a smile on his face he
pulled from his inside pocket a wallet
that contained a little change and a
check on the Rock County National
Bank for \$11 made payable to C.
Holt with the endorsement of George
R. Colling on the back.

Mr. Robinson, after looking at the
check, handed it to Mr. Grubb, who
smiled and then cashed it in less time
than it takes to write one. With the
trousers under his right arm the
stranger went down the street with a
broad smile that covered his entire
face.

Found Another Victim

At S. O. Burnham & Co.'s jewelry
and music store he walked in, picked
up a newspaper and made those in
charge believe that he had time to
burn. He asked to see a pair of
glasses, stating that he had been hav-
ing trouble of late with his eyes. He
was waited on and easily satisfied. In
exchange he presented a check on the
same bank and payable for the same
amount to C. Holt. The name of A.
H. Harrington was forged to this
check, and it was speedily cashed.

Victim Number Three.

At R. M. Bostwick's clothing store
on South Main street he asked to see a
coat and vest, and it took him but a
short time to convince James Davey,
the veteran clerk, that he was there to
buy. The coat and vest suited him
from the start. On pulling out his
pocket book he appeared surprised and
stated to Mr. Davey that he didn't
have enough cash with him, but that
he had a check that he wished to turn
into money. The little piece of paper
was on the same bank for \$11, and
made payable to the same man and
bore the endorsement of George R. Col-
ling. It was immediately cashed,
and the stranger left.

That was the last heard of the mys-
terious Mr. Holt. This week when
the three checks made their appear-
ance at the Rock County National
bank it took but one glance from the
eagle eye of Cashier A. P. Burnham
to convince him that a
stranger had arrived in town.
The victims were then informed for
the first time that they had been taken
in. Chief Hogan was notified, and all
this week a sharp lookout has been
kept for the mysterious Mr. Holt, but
as yet he is still at large and has no
doubt sought other green fields. He
is described as a middle aged man, one
would take for a laborer. He has a
mustache and is rather light complected,
and fairly well dressed.

The forged name of A. H. Harrington
was no doubt intended for the rec-
tor of Christ Episcopal church, while
the name of George R. Colling was no
doubt intended to read George G. Col-
ling, the local contractor.

WEDDED BY THE JUSTICE

Beloit Couple Were Anxious To Get Mar-
ried, and Were Accommodated.

Yesterday afternoon at 4 o'clock a
good looking couple walked up the
stairway in the public library build-
ing and asked the way to ex-City At-
torney McElroy's office. When once
inside they stated that they wished to
get married, and that the sooner the
better.

Attorney McElroy convinced them
that he had not the power to make
them husband and wife, but
that Justice Richardson was the
one they were looking for.
Justice Richardson was soon on the
scene and the happy couple were made
one. After the showing of hearty
congratulations by a few interested
spectators the wedded pair hurriedly
made their exit. The groom gave the
name of Fred B. Stauffer and the
bride Miss Rosebelle Thompson. Both
reside in Beloit.

LOCAL SPORTSMEN SEEK WILD GAME

PRAIRIE CHICKENS MADE TO
SUFFER TODAY.

Hunters by the Score Took Possession
of the Prairie Lands and Marshes
at an Early Hour—Game Reported
Plentiful and Well Fattened—Shoot
Till December.

Sportsmen by the score have been
leaving Janesville ever since early yester-
day, and it is doubtful if ever the
hunting season created more interest
in this section than it has this year.
September 1 marks the opening of the
feathered game season in this section,
and that fully two hundred from the
Bower City were out on the nearby
prairies and marsh lands today is plac-
ing the figure low.

Last evening the local hardware
stores did a big business in supplying
the hunters with shot and powder.
Many this year have made the pur-
chase of new guns.

Went to the Marshes.

At midnight last evening several
loads left town for the marsh lands
near Hanover and Leyden. Several
sought the prairie lands near Emerald
Grove. Many took the early morning
trains for points farther north where
game is reported more plentiful. Small
boys who never before shouldered a
gun have gone out this year, and the
doctors are now anxiously awaiting
reports.

Yesterday afternoon the trains lead-
ing south, west and north car-
ried large numbers of Janesville nimrods
bound on their annual hunting excu-
sion to favorite preserves, taking with
them choice assortments of guns, am-
munition and dogs, and leaving be-
hind a group of sporting goods dealers
highly delighted with the result of the
opening of the fall trade.

Prairie Chickens Plentiful

The supply of game birds, accord-
ing to a leading hunter, exceeds all
expectations, prairie chickens and
partridge being more plentiful than
last year, while ducks are scarce and
the season is too young for snipe,
which have not yet left their northern
haunts.

At Horicon, Puckaway and
Butte des Morts lakes, where the teal
and wood duck are usually plentiful,
very few birds were "marked down"
by the sportsmen who made a
reconnaissance last month. The
prospects for good shooting later in
the fall are excellent, however,
as the supply of feed in all the
lakes frequented by the mallard, red
head, bluebill and other varieties of
late ducks is ample. In the vicinity
of Waupun, Princeton, Horicon, Fox
Lake, La Crosse, Oshkosh, Markesan,
Monroe Junction, Oconomowoc, Mad-
ison and Janesville the greatest number
of chicken hunters have headed,
while the sportsmen in search of
early ducks have gone to the clubs at
Horicon, Marquette and Koshkonong.

During the past month, however,
game birds have been shot by the
"doctors," as the violators of the
game laws are denominated, but the
deputy game wardens have been un-
usually active and a large number of
law breakers arrested.

SPECIAL NO. 1.

Ford's New
Departure.

We are ready this month
with a change of store plan.
We have added to our line
a limited, but very carefully
selected line of ready to
wear...

Suits, Overcoats
and Trousers....

The change is in the line of bet-
ter facilities for meeting the popu-
lar demand for reliable tailoring at
rock bottom prices. Fair investi-
gation has shown us that this is not
done by the work turned out by
mail-order tailoring firms in Chi-
cago. Neither in fit nor work-
manship do they come up to the
mark. In the stock we now offer
we overcome these defects. We
show a line such as ready-made
clothing houses do not carry—
specially designed for us from sug-
gestions gained in thirty years in
the custom tailoring business. In
reality the garments are first-class
custom tailoring laid before you
ready to wear. The stock abounds
in good points. Detailed mention
will be made from day to day of
the inducements offered to careful
dressers.

RELIEVED OF NIGHT DUTY

Foreman Harlow, of the Northwestern,
Gets An Easier Job.

Edward G. Harlow, who for the past
thirty years has been assistant night
foreman at the local Chicago & North-
western round house, was today dis-
charging duty for the first time. At
his own request the change was made
on account of the night service being
too trying for a man of his years.

Mr. Harlow prior to the breaking
out of the civil war, was a grain buyer
in this section, and gave up his busi-
ness to help form the Twelfth battery,
which did brave service at the front.

At the close of the war he entered the
service of the Northwestern, and has
ever since been one of the company's
most faithful employees.

Chicago Soldiers Landed at Fort Montauk.

THREE DAYS' QUARANTINE.

Regiment Will Soon Be Mustered Out—Seventh Army Corps Parades at Jacksonville—Wisconsin Men Are to Be Brought Home.

Camp Wikoff, N. Y., Sept. 1.—The First Illinois was landed Wednesday afternoon, and is now in quarantine. No one is allowed to come closer than five feet of them. They have only three days more to serve, then they can cross the "dead line" like other folks.

President McKinley Will Act.
Cleveland, O., Sept. 1.—President McKinley is profoundly concerned over the army scandals. He has the situation in hand and will act probably soon after his return to Washington from his visit to the Montauk camp, providing there has been no reaction in the attitude of the press and public resulting from a belief that the stories of abuses have been overdrawn. This remark was made by a gentleman who has been and talked with the president and his closest advisers here during the visit of Mr. McKinley to Cleveland.

Says Aguinaldo Is Unpopular.
Manila, Philippine Islands, Sept. 1.—According to Spanish advices, there is a strong feeling in the provinces against Aguinaldo because the insurgents' anticipations have not been realized. They are said to have exhausted their funds and the supplies obtained from the monasteries and to be unable to obtain any relief from the insurgent leader. It is added that Aguinaldo is afraid to make his contemplated visit to Bulacan owing to the fact that he is unable to comply with the insurgents' demands.

Many Die on the Voyage.
Camp Wikoff, Montauk Point, L. I., Sept. 1.—When the transport Allegany arrived here Wednesday with eight companies of the Ninth Massachusetts on board it was announced that fourteen deaths had occurred during the voyage from Santiago. Third of a Regiment Died.
Chickamauga National Military Park, Ga., Sept. 1.—A list of dead in the army at Chickamauga from May 1 up to and including Wednesday numbers 223. This includes the men who have died in the army hospitals and in the hospitals and private residences of the city. The list was obtained from the registrar of vital statistics and from the records of the national cemetery.

Parade at Jacksonville.
Jacksonville, Fla., Sept. 1.—The Seventh army corps paraded the streets of Jacksonville Wednesday. It was one of the most brilliant military pageants ever held in the state. Over 30,000 soldiers were in line, in addition to ambulance and hospital corps. They passed in review before Gen. Fitzhugh Lee and staff.

Santiago, Sept. 1.—Gen. Toral embarked Wednesday for Spain on the Leon XIII. The vessel will call at Guantanamo to take off the prisoners still there, about 220. Before his embarkation Gen. Toral refused to discuss the general campaign, but he paid a high tribute to the American soldiers.

Send Recruits to Montauk.
Atlanta, Ga., Sept. 1.—The department of the gulf has been ordered to send all the recruits for the regular army now in this department to Montauk Point at once. The number, 4,400, will be started for Long Island as soon as the transportation can be arranged.

Cervera May Return to Spain.
Annapolis, Md., Sept. 1.—President McKinley's orders have been received here directing Admiral Cervera and his officers and sailors to return to Spain at once, without giving parole, in accordance with the instructions of the Spanish minister of marine.

Seventh Illinois Sent Home.
Harrisburg, Pa., Sept. 1.—The Seventh Illinois received notice at Camp Mead Wednesday to suspend work on the muster rolls, and it was directed to proceed as soon as possible to Springfield, where the regiment will be disbanded.

Rests with Gov. Tanner.
Washington, Sept. 1.—If Gov. Tanner consents, and it is satisfactory to the First Illinois regiment, Gen. Corbin says it will be mustered out in Chicago instead of at Springfield.

Favors Keeping the Islands.
Montreal, Sept. 1.—Ex-Senator Washburn of Minnesota, who is in Montreal, expresses himself as a strong advocate of a forward policy on the part of the United States.

Mr. A. O. Wolfe, of Dundee, Mo., who travels for Mansur & Tibbatts, Implement Co., of St. Louis, gives traveling men and travelers in general, some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in the U. S. will carry a bottle of this remedy in his grip." For sale by Peapies' Drug Co., Milwaukee street.

LATE NEWS BY TELEGRAPH.

SAYS CHARGES ARE UNTRUE.

Pythian Supreme Officers Are Exonerated.

HAS BEEN NO EXTRAVAGANCE.

Expenditures Which Caused the Scandal Were Authorized by the Supreme Lodge—Present Managers of Endowment Rank Are Re-elected.

Indianapolis, Ind., Sept. 1.—The special committee appointed to investigate the charges of mismanagement made in a local newspaper against the officers of the supreme lodge Knights of Pythias, made its report Wednesday. The committee finds the charges of dishonesty unfounded, and says that the alleged extravagance was ordered by the supreme lodge itself. The committee paid special attention to the discovery of the author of the charges but the report fails to show that it was successful in this. The committee states that it had before it many witnesses, including the editor of the newspaper and other representatives of that paper. The newspaper men testified that the person who furnished the information reflecting upon the officers of the supreme lodge is a member of the supreme body.

The committee suggests that hereafter the officers of the supreme lodge submit a prepared statement to the finance committee whereby it shall be able to judge approximately of the work done by each officer, so that it may be able to say whether the salary paid was too high or too low, and whether the expenditures of the office were unwarrantable.

John A. Hinsey was re-elected chairman of the board of control of the endowment rank by the supreme lodge without a dissenting voice. For the greater part of the day the representatives considered the affairs of the endowment rank. The old board of control, including W. W. Blackwell of Kentucky and W. H. Loomis of Michigan, was re-elected and the affairs of the endowment rank are in the same hands as they have been during the last two years.

The question of salaries and expenses for the next two years is a problem still unsettled. The finance committee has made a recommendation that the salary of the supreme chancellor for the next two years be \$6,000 and that of the supreme keeper of records and seal \$7,200, the total expenses of the supreme chancellor not to exceed \$4,000 for the two years and expenses of the supreme keeper of records and seal not to exceed \$4,300. To the supreme master of the exchequer is allowed \$1,500 salary for the two years and \$400 traveling expenses. The committee appointed to recommend the time and place of holding the next encampment of the uniform rank and convention of the supreme lodge has reported in favor of Detroit and set the time for the meeting of the supreme lodge on the second Tuesday in September, 1900.

Gas Magnates in Conference. New York, Sept. 1.—There was a meeting of influential interests in the People's Gas company to try to adjust the differences between the two companies. Besides Mr. Flower, President Billings, Anthony N. Brady and the general counsel of the People's company, and E. C. Benedict and F. S. Hastings of the Indiana company were present, and the entire situation was canvassed. It was stated that after the meeting that the prospects of a settlement was bright, but that some details were yet to be arranged.

Many Men in the Hospital. Lexington, Ky., Sept. 1.—There are 233 sick soldiers in the division hospital, 81 in the city hospitals, and about 500 sick in quarters, making nearly 1,000 out of the 15,000 encamped here who are unfit for duty. Many of those who were first taken sick have returned to duty, and the readiness with which the diseases are yielding to treatment causes the surgeons to believe there will not be a heavy mortality, notwithstanding the number of sick is so rapidly increasing.

Chinese Not Allowed to Land. London, Sept. 1.—The Hongkong correspondent of the Daily Mail says United States Consul Wildman has learned from Gen. Greene that Chinese are not allowed to land at Manila. The Spanish customs are retained. Receipts from customs for the last ten days have been 200,000 pesetas.

May Be Fighting in Soudan. London, Sept. 1.—There has been a sudden interruption of news from the Soudan. It is supposed that a battle is in progress between the Anglo-Egyptian forces under Gen. Sir Herbert Kitchener, the sirdar and the dervishes, under the khalifa, north of Omdurman, the khalifa's capital.

Will Remove Havana Mines. Washington, Sept. 1.—The French ambassador, acting for the Spanish government, has notified the state department that orders have been issued to the Spanish authorities at Havana to remove the mines and other obstructions to navigation in that harbor as rapidly as possible.

Iron Brigade Reunion Ends. Milwaukee, Sept. 1.—The reunion of the Iron Brigade came to a close Wednesday after choosing Racine, Wis., as the next place of meeting in the first week of September next year.

WILL ENJOIN THE MINE.

Bloodless Solution of the Pana Strike Problem Probable.

Pana, Ill., Sept. 1.—The visiting and local miners to the number of perhaps 800 held a meeting Wednesday, and after an exciting debate determined to wait until State Mine Inspector Walton Rutledge of Alton had examined the Springside mine before attacking the deputy sheriffs and forcing the negroes out.

At 10 a. m. the locked out miners wrote of the Cartersville district union a report of Mine Inspector Rutledge's investigation, and of his intention to enjoin the Springside Coal company from further operating the mine until certain repairs are made and a fire boss is employed.

There is talk of a fight without the support of the union officials, but it is unlikely.

Inspector Rutledge has gone to Taylorville to institute injunction proceedings, after posting the required two days' notice.

Czar's Note on the Way.

Washington, Sept. 1.—The state department has received a cable message from Ambassador Hitchcock, at St. Petersburg, saying that he had been handed by the Russian minister for foreign affairs a copy of the identical note addressed by order of the czar to all of the representatives in St. Petersburg of foreign governments, proposing a joint conference to consider the question of general disarmament. As the proposal is one which would involve a radical change in the foreign policy of the United States, it is accepted by this country. It is not deemed probable that any decisive action upon it will be taken for some time. As the proposition of a government with which the United States has always been on friendly terms, the note will, of course, receive careful consideration.

Have Plenty of Provisions.

Ottawa, Ont., Sept. 1.—The investigation conducted by the Canadian government, at the request of the United States government, develops the fact that the 1,500 persons on the Teslin trail between Telegraph creek and Teslin lake are well supplied with provisions. This is contradictory of the published reports that there were 3,000 Americans starving on that trail.

Hospital Ship Sunk.

Ferdinand, Fla., Sept. 1.—The hospital ship Olive, which has been lying near the quarantine station, through some mysterious agency sank Wednesday morning about 7:30 o'clock. Aboard of the ship was the hospital corps of thirty-five and a crew of forty-five persons, all of whom escaped without injury, but in scanty attire.

Six Thousand Dollars Stolen.

Omaha, Neb., Sept. 1.—Pacific express money packages containing \$6,000 in George W. Archibald's wagon safe, while being delivered at the express office in the union depot Wednesday morning, to be sent on the overland flyer at 3:50 o'clock, were stolen most mysteriously.

Dr. J. I. Terry, of Trimble, Tenn., in speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy, says: "It has almost become a necessity in this vicinity." This is the best remedy in the world for colic, cholera morbus, dysentery and diarrhoea, and is recognized as a necessity wherever its great worth and merit become known. No other remedy is so prompt or efficient, or so pleasant to take. Sold by People's Drug Co., E. Milwaukee street.

Glass Blowers' Strike Threatened.

Indianapolis, Ind., Sept. 1.—Representatives of the glass manufacturers of Indiana held a meeting here Wednesday, and at another hotel representatives of the glass blowers were in session. Both meetings were secret and nothing was allowed to escape from the members except the statement by the manufacturers that it was impossible to pay a higher scale than that offered, and by the blowers that unless the manufacturers granted a higher scale a strike is inevitable, as the blowers' organization will not submit to a reduction. The unions have subscribed \$50,000 as a strike fund.

Chamberlain on the Way.

London, Sept. 1.—The Right Hon. Joseph Chamberlain, secretary of state for the colonies, and Mrs. Chamberlain sailed for New York Wednesday on board the steamship Majestic.

OPEN LETTERS FROM

Jennie E. Green and Mrs. Harry Hardy.

JENNIE E. GREEN, Denmark, Iowa, writes to Mrs. Pinkham: "I had been sick at my monthly periods for seven years, and tried almost everything I ever heard of, but without any benefit. Was troubled with backache, headache, pains in the shoulders and dizziness. Through my mother I was induced to try Lydia E. Pinkham's Vegetable Compound, and it has done me so much good. I am now sound and well."

Mrs. HARRY HARDY, Riverside, Iowa, writes to Mrs. Pinkham the story of her struggle with serious ovarian trouble, and the benefit she received from the use of Lydia E. Pinkham's Vegetable Compound. This is her letter: "How thankful I am that I took your medicine. I was troubled for two years with inflammation of the womb and ovaries, womb was also very low. I was in constant misery. I had heart trouble, was short of breath and could not walk five blocks to save my life. Suffered very much with my back, had headache all the time, was nervous, menstruations were irregular and painful, had a bad discharge and was troubled with bloating. I was a perfect wreck. Had doctored and taken local treatments, but still was no better. I was advised by one of my neighbors to write to you. I have now finished the second bottle of Mrs. Pinkham's Vegetable Compound, and am better in every way. I am able to do all my own work and can walk nearly a mile without fatigue; something I had not been able to do for over two years. Your medicine has done me more good than all the doctors."

How Far Will a Dollar Go?

This is the great every-day problem with buyers in every line.

You will never know how far you can make your dollars go for

Lumber and Building Material . . .

Until you bring them here. More people have found this out the past year than in any previous year, and the result is these are very busy times with us. Our trade has never been so large, and by extending our force and working over-time, we have met every demand promptly. These happy conditions may be partially due to the general revival of business, but the greatest agency has been the fact that the people are learning that our material and work are better and cheaper. All we ask is a proportionate growth during 1898, and we expect it. It will be to your advantage to help the increase along.

Poplar, Spruce, Hemlock, Cypress, all kinds of Pine. Sash, Mill Work, Stair Rails, Doors, Sawings, Turnings, Newels, Balustrades, Brackets, Mouldings, Blinds, Etc., Etc.

Lava Is Volcanic Rock.

It is the molten ash of the volcano. It will accept a greater degree of heat before burning than most any substance known.

Lava Enameled Solid Steel Hollow Ware...

Is first dipped in aluminum, then enameled with lava, making it the strongest, most wearable kind of ware. It absolutely will not check or spot, and empty utensils can be left on the stove over the hottest of fires without danger of harm. On the other hand Lava Ware accepts so intense a heat that cooking is done in much less time than is consumed with other kinds of utensils. Lava Ware is practically non-breakable, will outwear any other ware and is therefore the cheaper in the long run. Lava Ware is not much more expensive than others. For instance we sell:

No. 8 Tea Kettles, \$1.00; No. 9 Tea Kettles, \$1.20.

We have these goods in Tea Kettles, Stew Pans, Sauce Pans, Preserving Kettles, Wash Dishes, etc.

TWO NEW GROCERY ARTICLES!

Some new things are better than old ones. Some are not so good. We look carefully into new articles before we recommend them to replace the old ones. The two new grocery articles we are speaking of you have already become familiar with-- their names at least.

Freun's Wheat Wafers.

I. X. L. (Cold Water) Starch.

We have pushed both of them quite extensively in the past few weeks, and with real marked success too. People have bought freely of them, praised them both generously. We knew of their merit to such an extent that we felt warranted in placing our personal guarantee back of them. The manufacturers give their word as to their worth, so there is no doubt but that they are good.

I. X. L. Cold Water Starch does not require boiling. It saves time and labor and is the best article of its kind on the market. We sell it 3 packages for 25c, whereas it usually retails at 10c package. Large purchases place us on a jobbing basis.

Freun's Wheat Wafers A perfectly digestible, nutritious breakfast food. The weakest stomach digests it. Children grow healthy and strong with it as a food. Grown people acquire more nerve force and general strength on Freun's Wheat Wafers. The indigestible part of the wheat kernel is removed. We sell it 10c package; usual retail price is 2 packages 25c. Our large purchase helps us to make the low price.

We never give our word to an article unless it has merit. You can rely on both of these articles. Give them a trial.
